MOMONDO LAUNCHES CITY GUIDE APP MOMONDO PLACES FOR IPHONE

Travel search site momondo.co.uk now launches its free iPad city guide app, momondo places, for iPhone: inspiring users when planning their travels and when on the go – all according to travel mood.

momondo now expands its roster of mobile apps with the launch of the momondo places city guide for iPhone. An iPhone version of the popular iPad app is a natural next step for the travel search site and it means that momondo now also meets users' inspirational needs on the go and even when offline.

momondo places provides inspiring insight into the best sights, hidden gems, markets, boutiques, restaurants, cafés, bars and hotels in eleven of the world's greatest cities – Amsterdam, Bangkok, Barcelona, Berlin, Copenhagen, Lisbon, London, New York, Paris and Rome with several new cities to come in 2015.

Travel according to mood

Each city guide features more than 200 unique tips, all matched to the app's six distinct moods – Romantic, Social, Family, Local, Cultural and Fancy.

"To make it both playful and convenient to find places that match your travel style, we've coloured each place in our city guides with its mood," explains Lasse Skole Hansen, spokesperson for momondo. He adds: "If you're travelling with a loved one you can choose romantic red or if you're travelling with children, go for green family places full of fun, play and activity."

The places in each city are sorted like a deck of cards that can be expanded into an accordion view designed for fun and playful navigation
